It's Lonely in the Metaverse: DappRadar Data Suggests Decentraland Has 38 ‘Daily Active’ Users in $1.3B Ecosystem

Data from DappRadar suggests metaverse platforms Decentraland and The Sandbox each have fewer than 1,000 "daily active" users, despite $1 billion valuations. The platforms say these numbers don't tell the full story.

123 Million Users within 3 Months

“It's a mistake to be relying on it for anything important right now.” – Sam Altman, OpenAI CEO
We think you should message a business just the way you would message a friend," Mark Zuckerberg said on stage at f8.

Nadella during a nearly three-hour keynote sketched a vision for the way humans will interact with machines. “People-to-people conversations, people-to-digital assistants, people-to-bots and even digital assistants-to-bots..”
An AI is putting generative AI to work

Video game makers are putting generative AI to work. Other developers are dabbling with generative AI to create game code ... But people shouldn't expect AI to make broadly appealing games on its own.

Human experts will matter more than ever

AI will soon be everywhere—but largely behind the scenes

As the tech gets good enough, AI will have a face, but not for every use case
The best thing about AI is its ability to

| learn  | 4.5% |
| predict| 3.5% |
| make   | 3.2% |
| understand | 3.1% |
| do     | 2.9% |

STEPHEN WOLFRAM
"Our models won't be smart enough to be trusted, for the foreseeable future."
- OpenAI, from its 2022 guidelines for fine-tuning ChatGPT
A very strange conversation with the chatbot built into Microsoft’s search engine led it to declaring its love for me.

In a two-hour conversation with our columnist, Microsoft’s new chatbot said it would like to be human, had a desire to be destructive and was in love with the person it was chatting with. Here’s the transcript.
