

Instructions for authors of abstract

- Abstracts must be submitted via the online form only, abstracts submitted by email **will not be accepted**.
- Abstracts must be submitted in English, using UK English spelling.
- The presenting author of an accepted abstract must register and attend the congress.
- The number of submissions is limited to 3 per presenting author.
- The number of authors is limited to 20 per abstract.
- Provide a short specific title indicating the scientific content of the abstract. The **background** and goals of the study should appear clearly to the reader. The **methods** need to outline patient group, methods applied, statistical considerations, if applicable. **Results** must contain data (except for Late Breaking abstracts [LBA]– see below), and the **conclusion** should be clearly expressed. The following structure will be required:
 - Introduction/Background*
 - Methodology
 - Results*
 - Conclusion*
 - Disclosures* (online recording via the submission form)
**mandatory fields*
- The title may not exceed 30 words. The abstract text may not be longer than 300 words (excluding title, authors and disclosures).
- All abbreviations must be defined the first time they appear in the text (but do not define in the title).
- Tables charts and other graphics (for all in total maximum 1) are permitted and must be in high resolution JPG format.
- Authors should indicate their presentation type preference:
 - Oral presentation preferred
 - Paper poster presentation
 - E-poster only
 - Video presentation
 - Oral presentation in the ENYGO Young investigator session (only for authors up to 40 years)
 - Place holder for LBA

The Programme committee reserves the right to decide on the final allocation and presentation method.

- Disclosure of potential conflict of interest (e.g., grant support, consultancy, membership on advisory councils, speaker's bureau) by all authors and source of funding are mandatory. The submitting author is responsible for collecting a Conflict of interest form for all co-authors. All disclosures should be listed within the last 3 years.
- Abstracts submitted via **commercial entities** will be considered. However, these abstracts should report results from collaborative research conducted by independent (non-commercial) investigators. Investigators, as contributing authors who are employees of commercial entities will only be accepted if independent (academic, clinical and/or scientific) investigators are included as authors. The presenting author should not be an employee of the company.
- **Systematic review/meta-analysis** abstracts are acceptable.
- **Trials in progress (TiP)** can be accepted as posters/e-posters but will not be accepted as oral presentations. These should not previously have been presented as TiP at an ESGO congress. TiP abstracts should be listed as a special category/topic.
- **Encore abstracts** (previously presented at a recent international meeting) can be accepted; however, they should be modified and include some new data if possible.
- If several abstracts are based on similar analyses of the same database and more than one of them is selected for oral presentation, the authors might be asked to combine some/all data into one presentation.
- **Case reports** for single cases will not be accepted unless they contain substantial translational work.
- **Late Breaking Abstracts (LBA)** are reserved for newly emerging data that is not available at the time of abstract submission. These could be for initial presentation of results, or significant secondary endpoint analyses. A placeholder LBA must be submitted containing the title, background, methods and type of results that will be presented. LBA will not be accepted at a later date unless a shell abstract has been submitted.
