

DUBLIN • IRELAND 7-9 September 2022

OFFICIAL SYMPOSIA

WEDNESDAY, SEPTEMBER 7th • 11.30-13.00h

SYMPOSIUM 1

SHOULDER TENDON TRANSFER IN POSTERO SUPERIOR IRREPARABLE ROTATOR CUFF TEAR

Philippe Valenti (FR)

ROOM: The Auditorium

Introduction:

Definition Massive irreparable PS RCT

Philippe Valenti (FR)

What does a tendon transfer do to the biomechanics of the shoulder?

Jean David Werthel (FR)

Clinical examination and imaging of a postero superior rotator cuff deficiency ?

Paolo Paladini (IT)

(Video) Indications, tips and tricks

- and results of LD

Jean Kany (FR)

- and results of LT

Bassem Elhassam (USA)

- and results of SCR

Clara Azevedo (PT)

Place of the balloon ?

Jens D. Agneskirchner (DE)

Episcopo versus LD to great tuberosity?

Sven Lichtenberg (DE)

SCR or LD? what is the best choice

Ruth Delaney (IE)

Panel discussion clinical cases

Chairman: Jean David Werthel (FR)

Speakers: Clara Azevedo (PT)

Jean Kany (FR)

Bassem Elhassam (USA)

Paolo Paladini (IT)

Take home messages

Philippe Valenti (FR)

OFFICIAL SYMPOSIA

THURSDAY, SEPTEMBER 8th • 09.00-10.30h

SYMPOSIUM 2

DIGITAL PLANNING FOR SHOULDER ARTHROPLASTY: IS TECHNOLOGY REALLY MAKING US BETTER SURGEONS?

Ruth Delaney (IE) / Olivier Verborgt (BE)

ROOM: The Auditorium

Introduction:

Why we as shoulder surgeons became interested in this technology and how it is different (better) than in other joints (such as knee and hips)

Ruth Delaney (IE)

Are we sure planning software makes a difference? A potential defence of "traditional" radiological planning

Samuel Antuña (ES)

Scientific rationale for retroversion and inclination

Olivier Verborgt (BE)

Scientific rationale for humeral subluxation and glenoid plane

Philippe Collin (FR)

Benefits & limitations of automated 3D reconstruction, automated measurements and automated planning

Ashish Gupta (AU)

How to analyse the different systems (what information a surgeon should ask for before using software)

Matthias A. Zumstein (CH)

Discussion
