

ESTS ANNUAL CONFERENCE LJUBLJANA, SLOVENIA 27-30 MAY 2018

VATS Core Skills Simulation workshops

28th & 29th May

Overview

Experience a very hands-on practical simulation training session designed to elevate your core surgical skills in VATS. The sessions will be chaired by highly experienced surgeon faculty that will coach you in various techniques associated with VATS surgery including aspects such as port placement, tissue handling, instrument handling, tissue exposure and camera handling skills.

There will be two session formats: one focused on multiportal VATS and a second focused on Uniportal VATS. Each session can accommodate 20 participants.

Location

Ethicon Training Village
ESTS Annual Congress, Ljubljana
