CHAIRS

Pierre Emmanuel Falcoz
(Strasbourg/FR)

Alexander Patterson
(St. Louis/US)

Matthias Siepe
(Bern/CH)

Matthias Siepe
(Bern/CH)

How to organise and carry out clinical research?

Alexander Patterson
(St. Louis/US)

How to write a paper?

Brian Mitzman
(Salt Lake City/US)

How to Survive Peer Review?

To expedite your career trajectory in thoracic surgery, capitalize on the one-hour session with the key editors of thoracic surgery journals. Extract invaluable insights on organizing and executing clinical research effectively, mastering the art of paper writing, and navigating the peer review process adeptly. Implement these strategies meticulously to propel your professional journey and make significant strides in the field of thoracic surgery.

ESTS Course on Scientific Medical Communication – next edition expected in November 2024
